

*School Library Journal* will begin considering for review new (i.e., previously unpublished) **young adults** and **some middle grade** titles. Young adult or middle grade titles that contain illustrations or image-heavy design elements are not eligible. Please continue to submit physical galleys, as not all *School Library Journal* reviewers are currently able to review digital-only copies.

*School Library Journal* and NetGalley have announced a streamlined process for publishers to submit their titles for review consideration. Publishers who use NetGalley can **fill out [this easy submission form](#)** to send title information and an auto-approved “widget” to allow *SLJ* reviewers to access the e-galley. Assigned reviewers will be designated as “*School Library Journal* Authorized Reviewers” in their NetGalley profile.

Following the guidelines below does not guarantee a review, but doing so will increase the likelihood of prepublication exposure in *SLJ*'s print and online forums.

Please respect the privacy and objectivity of our reviewers; to communicate important changes to manuscripts or bibliographic data, contact *SLJ* directly at [sljgalley@mediasourceinc.com](mailto:sljgalley@mediasourceinc.com) (new email address!).

If you have any questions about *SLJ* guidelines, please email *SLJ* Editor, Reviews Kiera Parrott at [kparrott@mediasourceinc.com](mailto:kparrott@mediasourceinc.com). If you have questions about the submission form or creating the open widget, contact [conciierge@netgalley.com](mailto:conciierge@netgalley.com).

#### **Simple Submission Guidelines for E-Galleys:**

- 1) E-galleys should ideally be uploaded to NetGalley at least two months prior to publication date; our editors and their reviewers require a minimum of 60 days of access to e-galleys.
- 2) **Publishers who use NetGalley can fill out [this simple submission form](#)** to send title information and an auto-approved “widget” to allow *SLJ* reviewers to access the e-galley.
- 3) That submission form *must* contain an **open NetGalley widget** to grant *SLJ* auto-approved access to that title. The widget should *not* be associated with a particular email address, since multiple *SLJ* editors/reviewers will need access. (For help with the NetGalley widget, contact [conciierge@netgalley.com](mailto:conciierge@netgalley.com).)
- 4) As stated above, prepublication reviews are our goal, but we will consider works published within the last three months that we think hold special significance for library collections.
